

Spiritual Manifestations.

The "Rochester rappings," and the "rappings" elsewhere in the North, have created much amazement. We always supposed they were but base impositions that would soon be exposed. We were mistaken in this, however. Many exposures have been made, but the expositors are the humbugs. A lady won a month's immortality by publishing the discovery that the effects were produced by the toes of the young-lady "mediums," after being soaked in hot water! Then a medical gentleman, who had investigated the subject, alleged that the rappings were produced by snapping certain bones in the knee-joints! And now a certain Mr. Vose, of Boston, asserts that these mysterious sounds are produced by electricity. It is his practice to place his hands flat upon the table, and then he strongly wills that the sounds shall be produced, on which the raps are distinctly heard in the order and the number he desires. He says that, during the operation, the electricity can be plainly felt escaping from the ends of the fingers! Is this not too ridiculous!

The faculty of producing these sounds, Mr. Vose says, is confined to few persons, not one out of twenty possessing it. He moreover states that in cases of persons of strong will, no table is needed to produce the sounds. Such, by a little practice, can throw electricity from the body in any direction they please, and whenever the expelled electricity meets a hard substance, the noise follows! By the exercise of the same power, according to Mr. Vose, tables, chairs, and other articles of furniture may be made to move.

The certainty that no explanation given is the right one, has done much to excite faith in the rappings.

We are less amazed at the phenomenon of the rappings than at the information given by the rappers. We will state a case related to us by one of the parties to the occurrence, and (little faith as we have in necromancy) whose words we believe.

He buried his child in the morning, and that day, under a pressing necessity, traveled some twenty miles, having his wife with him. At the hotel where he stopped, two young ladies were that evening to give an exhibition of their wonderful powers. In compliance with the wishes of his afflicted wife, he entered their room. On being asked if he wished for any communication, he replied that he did not, unless all present would first place their hands upon the Bible, which he saw upon the table, and solemnly declare that they would practice no deception. All assented; and the feeble rappings of a child soon responded to his questions. "My wife and I were for a moment overpowered," he remarked, "but soon rallied with an effort, to prosecute our inquiries; but what was our amazement when the light raps told us we were conversing with our boy—told us all the particulars of his burial—told us the position of his grave, beside whom he was buried, the precise age of that person, and a number of facts that even we could not establish, until we had reflected and consulted together in relation to them!" Of the impossibility of any person's being present, or in the town, who could possess such information, he said he was convinced. "Yet," said he, "we left the place endeavoring not to believe in the spirituality of the exhibition, and yet with an irresistible feeling resting upon us that we had been in free converse with the spirit of our little loved one!"

Narratives like this are given daily by honest and respectable men and women in the North; and in explanation of their wonderful character, we are told that all the effects are produced by the cracking of a young lady's toe-joints, or by willing it, cause the electricity to fly from any part of the body, and produce any number of successive raps by coming in contact with resisting bodies!

HON. T. H. BENTON.—We learn that this distinguished statesman will to-day leave Washington for his home in Missouri, where he will remain until after the August elections. It is known that the anti-Benton portion of the Democracy of that State, comprising about a third of the party we believe, have proposed to reunite with the Benton Democrats. Against this Mr. Benton protests, and declares they shall be driven into the Whig party, rather than effect such a coalition. He will attend to the matter in person, and devote his whole energy, from this time out, to the success and purification of the Democratic party in Missouri.

Respecting Mr. Benton's historical work, some very erroneous reports have been circulated. It is not all written yet, and will be laid aside until his return to Washington next autumn. He will then carefully revise every sentence he has written, and go on to the completion of the work. It shall go before the world, he remarks, with no imperfections that the utmost patience and labor will enable him to remove. He is determined that it shall be in all respects worthy a place among the standard histories of the present age.

RYLAND CHAPEL.—The death of Mr. Gorsuch, who fell at Christiansburg, has made it necessary for his son, the Rev. Mr. Gorsuch, to leave his position here, and go home to administer upon his father's estate. In making arrangements to supply the pulpit of this chapel, the Rev. Samuel Kepler has been selected to take a temporary oversight of the congregation. He was compelled by ill-health some time since to resign his position in the effective ranks of the ministry, and as a means of livelihood to accept a situation under government, given him by the present distinguished Secretary of the Treasury. Mr. K. has now only consented to render a partial service, in view of an affection of the throat, that does not admit of his preaching more than once on the Sabbath. He will, however, perform such service as is not inconsistent with his duties to the general government, for a short time, and until a regular pastor shall be appointed by the approaching annual conference of the church.

We learn that Mr. K. will preach in the chapel on to-morrow evening, at 7 o'clock. The subject of the discourse, as announced on last Sabbath, is the resurrection of the human body.

A WORD IN SEASON.—If a man strike another, or slander him, or even shake his fist menacingly at him, the protection of the law is forthwith thrown around the latter, and the offender is punished. If one maltreat his horse, or other dumb brute, the same benevolent law comes to the relief of the animal, and its cruel master is punished. There are few instances in which oppression and cruelty are practised that may not be corrected by our civil magistrates, save where the custom of non-interference stands in the way of the law. And where is that? Seek out the family, the husband and father of which, in his self-love and self-indulgence, subjects his wife and children to excessive labor and privation. Despite all our boasts of gallantry and humanity, (and with the strangest inconsistency, too,) wrong is done with impunity by him, and the meanest tyranny is remorselessly practised.

We yesterday evening saw on Seventh street a good and sensible-looking girl, about nine years old, with a basket on her arm, into which she was gathering chips and pieces of wood in front of a new building, while her bare red feet were nearly frozen. The same degree of suffering inflicted upon any person in any other manner would not have been tolerated a moment. Yet the shivering child was unheeded, or they who saw her condition readily explained it by saying that her parents were poor. Should not the law and the custom under it make it the duty of an officer of police to go to that child's home with her and ascertain the reason of her cruel exposure, and to make prompt report, in order that either crime, idleness, and hard-heartedness should be punished, or pinching want relieved by the hand of charity? Can it be that in this city of Washington, boasting of its freedom, its intelligence, and its abundance, the power shall longer be permitted to unworthy parents to inflict the curses of their wickedness upon their unoffending and helpless children? Blessed as we are by Providence with every good gift—cherished as we are by the Congress of the nation, at whose command vast sums of money are here annually distributed, and our city beautified and adorned—is it not a burning shame that we do not adopt a firmer and more decided course of policy with reference to the poor and helpless, and resolve that there shall here be no suffering from destitution?

Before it is too late we should see to this. Every ward in our city should be subdivided into districts, and every district should be under the supervision of a citizen residing within it, who should be able at any moment to describe the condition of all the poor within it. In some instances it may prove necessary to remove the father to the workhouse; in others, a little fuel, a little clothing, a little bread, and a few visits from a physician, may save the life of a mother or her child; while in other cases the separation of the children from one or both parents is demanded by every consideration of humanity.

Respecting the feasibility of this plan we will only repeat an aphorism in which we have great faith, that "WHERE THERE IS A WILL THERE IS A WAY."

YOUNG MEN.—It will be perceived by the notice in another column that a discourse to young men will be delivered on Sabbath evening, at the F street Presbyterian church, by the Rev. Dr. Junkin. The impression made upon the minds of his hearers by Dr. J., on the occasion of a former discourse addressed to the young, has not yet passed away; and few who enjoyed the privilege of listening to it will omit the present opportunity. We are gratified that one has arisen among us whose attention is directed so earnestly to the improvement and elevation of the young; and we trust that others will imitate the example before them.

HUNT'S MERCHANTS' MAGAZINE.—The November number has just come to hand, and may be procured at Taylor & Maury's, full of information of great value to the merchant, the statesman, the statistician, and in fact to all who desire to keep pace with the times in solid and useful information.

RELICS OF THE BARBAROUS PAST.—The State of North Carolina is, in some particulars, very far behind the rest of civilization. Ear-cropping, whipping, the pillory, and such-like means of punishment, still disgrace her statute books. We notice that Wm. Tunnell, a youth, was convicted of forgery in Halifax county last week, and sentenced to stand in the pillory one hour, to receive nine lashes on the bare back, and be confined in jail six months. He is the adopted son of Mr. Isaac Scarborough, of Edgecombe county, on whom the forgery was committed. Why do not some of the reform men of that State take up the subject of reform in these matters? The cause needs only a courageous champion to insure success.

PINS.—Hunt's Merchants' Magazine contains a concise history of the pin manufacture in this country, from which we learn that the "American Pin Manufacturing Company," at Waterbury, Conn., and the "Howe Manufacturing Company," at Birmingham, (Derby,) Conn., now manufacture nearly all the pins consumed in the United States. There is a party at Poughkeepsie doing a limited business, and a small amount imported. Since the depression of 1846 to 1848, the business of the two companies named has been reasonably profitable, having been rendered so rather by reducing the cost of production and the expense of selling, than by the small advance in price which has been realized. Both companies manufacture the wire for making their pins. During the last year, the two companies have used principally Lake Superior copper for making their wire; their joint consumption of copper amounting to about 250 tons per annum. The present weekly production of pins by the two companies may be stated at about eight tons.

The present price of American solid-headed pins is believed not to exceed two-thirds of the lowest price at which imported pins of equal weight were ever afforded before the manufacture was introduced; and for service, they are undoubtedly better than the article of which they have taken the place.

COYER'S AGRICULTURAL STORE.—A splendid new iron front is being placed to this store, on 7th street, near the Avenue. Mr. Bogardus, the inventor of this style of architecture, is performing the work.

POSTSCRIPT!

[Despatched to the American Telegraph.]

Maryland Elections.

BALTIMORE, Nov. 8.—12½ p. m.
The whole city is now in, except the 18th ward. The vote for Comptroller stands: Thomas, (Dem.), 9,344; Morgan, (Whig), 8,032. The 18th ward will give from 300 to 400 Democratic majority.

In Baltimore city, Baltimore county, Howard, Anne Arundel, Talbot, Cecil, Harford, Queen Anne, Kent, Washington, Carroll, Prince George's, Montgomery, and Allegany counties, Thomas has 2,900 majority. Lowe, the Democratic candidate for Governor, had a little over 3,000 majority in the same counties last year. Thomas's majority in the State is about 2,000.

The Democratic candidates for Lottery and Land Commissioners are elected by a large majority. The Senate is Whig by from 3 to 5 majority. The House of Delegates stands: 39 Democrats, 24 Whigs—11 to hear from. The House will be Democratic by about 6 majority. 2 Whig and 2 Democratic Appeal Judges are elected. 4 Whig and 4 Democratic Circuit Court Judges are elected. 2 Whigs and 2 Democrats are elected Commissioners of Public Works. The vote of the State is short.

Wreck and Loss of Life.

BOSTON, November 8.—2 p. m.
The ship Oregon, from New York to Kingston, sunk in a gale, on the 17th of October. Three passengers were drowned; the rest saved themselves on a raft, and were picked up by the brig Conductor, and brought to Boston.

Sailing of Steamers.

NEW YORK, Nov. 8.—2 p. m.
The Pacific sailed with forty-six passengers; among them Father Mathew, and \$800,000 in specie.

The steamer Merlin, for Bermuda, took fifty-eight passengers and \$2,700 in specie.

The Prometheus, for Chagres, sailed this afternoon with a large number of passengers.

Mississippi Elections.

NATCHEZ, November 8.
Foot's majority is from five to ten thousand. Three Union Congressmen are certainly elected; the other is doubtful.

Louisiana Elections.

NEW ORLEANS, November 8.
St. Martin, Penn, and Morse, (Democrats), and Landry, (Whig), are elected to Congress.

Presentation of Medals.

NEW YORK, Nov. 7.—The presentation of medals by the British residents of this city to the seamen of the "Advance" and "Rescue," lately returned from the search after Sir John Franklin, took place this afternoon, on board the North Carolina, at the Brooklyn navy-yard. The medals were presented by Anthony Barclay, esq., British consul; and the ceremony was witnessed by a large invited company, embracing quite a number of ladies. In addition to the medal, a small sum of money was given to each of the seamen.

A Liberal Bequest.—The Great Telegraph Suit.

PHILADELPHIA, Nov. 7.—Abraham G. Thompson, a wealthy citizen, lately deceased, has bequeathed \$200,000 to various charitable societies.

Judge Kane, of the United States district court, yesterday ordered a decree in the case of the Morse vs. the Bain Telegraph line. The decree grants an injunction, but stays its operation until the decree of the court upon the report of the master; provided, the defendants shall, within ten days, give bond, with sufficient security to be approved by the court, in the sum of \$15,000, conditioned that the defendants shall answer and account to the complainants, in such manner as shall be finally adjudged, in all claims and suits, on such sums as the court may decree recoverable, which the defendants, or either of them, may receive at each and every station or office, either within or beyond the jurisdiction of this court, for the transmission of messages in whole or in part over this line of telegraph within the jurisdiction, and what belongs to or is connected with the defendant's line of telegraph within the jurisdiction of this court, from the date of this order to the time of the decree of the court upon the report of the master; and also to pay and satisfy all sums to which the complainants may be adjudged at law or in equity entitled to recover by reason of the injury done to them by the continuation of the infringement of the aforesaid patents during the period from the date of this order to the time of the decree last aforesaid. The decree goes the whole length in favor of the Morse patents, as decided in the bill, and enjoins and restrains the defendants, their servants, or agents, from the further construction or use of the Bain line. Thomas Dunlap, esq., was appointed master.

Railroads in Canada.

ST. JOHNS, N. B., Nov. 6.—It is reported that the Canadian Government have agreed to build simultaneously the Quebec and Richmond, and the Quebec and Halifax Railroads, with money obtained at \$4 per cent.

THE DUTCH TAVERN ON NINTH STREET.—The keeper of the hotel opposite the Republic office is, we are sorry to say, very angry with us for reporting that "a man wished to remain in a Dutch tavern on Ninth street, after he had got drunk and spent all his money." He says the man did not get drunk at his house, and as his is the only Dutch tavern on Ninth street, he considers himself a slandered man. But then we didn't say the man had got drunk there, or spent his money there—not we. He perhaps did all that somewhere else; and, if so, Mr. Stutz (we believe that is the name) is an innocent man—that is, if he don't take people's money, and if the liquor he dispenses don't make people drunk.

For the American Telegraph.

STEVENS'S HATS, &c.
Talk about the popularity of GENIE'S, the great fashionable hat merchant in New York! Why, our Washington Genie, better known as STEVENS, the polite and accommodating, can beat him, in fitting the finest kind of hats to the heads of gentlemen, out of sight. He can beat him, also, in furnishing the whole outward man with every thing neat, fine, and comfortable, either for winter or summer wear, and in the style of a one-horse vehicle, by which he sends to the residence of every one who orders "a hat, if you please."

But wait a few days, until Stevens gets located in the elegant store assigned him in the basement of Brown's Marble Public Palace, and then just step in and behold, wonder, and admire! Such rich, comfortable, and delightful hats, caps, and other covering and perfumery for the outward man, as will there be displayed, can only be compared to the accommodations found within the marble palace for the comfort and repose of the inward man. H. E.

LOOK TO THE ADVERTISERS, and you will see that another mass meeting of the total abstinence army will be held in front of the City Hall to-morrow afternoon, at 3 o'clock. The public are promised an interesting time if they will attend. "The Northern Liberties Division Total Abstinence Society" always come up to their PLEDGES, whether given against bad practices or for good speaking.

ASSAULT WITH INTENT TO KILL.—John McDevitt, — Norris, and James Selden, arrested by officers Handy, Boss, and Barnacle, have all been committed by Captain Goddard on the above charge, in the case of the attack on Mr. Harvey, on Monday night.

ELECTIONS.
MISSISSIPPI.—Louisville, Nov. 7.—Despatches from Mississippi leave no doubt of the election of Foote by a very large majority. Nearly all the Congressmen are also Union men.

NEW YORK.—Albany, Nov. 7.—From present indications, it is believed that the Whigs have elected their candidates for attorney general, treasurer, canal commissioner, and secretary of state. The remainder of the ticket is doubtful.

ILLINOIS.—Springfield, Nov. 5.—The election in Illinois for senators and representatives, and also to determine the question of the adoption or rejection of the general banking law, took place yesterday. We have as yet only scattering returns, but they indicate the adoption of the banking law by a large majority.

Nov. 7.—Returns from Illinois render it pretty certain that the free banking law has been adopted by the people.

WISCONSIN.—Milwaukee, Nov. 7.—Farwell, the Whig candidate for Governor, is elected by about 2,000 majority; and it is thought that the Whigs will also have a majority in the legislature.

Review of the Northern Markets for yesterday.

Office of the American Telegraph, Nov. 8.

NEW YORK, Nov. 7.—p. m.—Stocks are dull and declining. Sales of Canton at 65½ and Erie at 85½. Sales of 8000 bbls. flour at \$3.75 for State brands, and \$4.15 for Genesee. Rye flour \$3.10 to \$3.15. Corn meal \$3.75 to \$3.85. Sales of 2000 bu. Michigan corn at \$1.10. Sales of 1000 bu. Canada at \$1.10. Sales of 30,000 bu. mixed corn at 85c. Rye flour \$3.10 to \$3.15. Sales of pork at \$14.50 to \$15 for old and new. Sales of lard at \$10 to \$11. Sales of cotton at \$10 to \$11. Sales of wool at \$10 to \$11. Sales of sugar at \$10 to \$11. Sales of coffee at \$10 to \$11. Sales of tea at \$10 to \$11. Sales of spices at \$10 to \$11. Sales of oils at \$10 to \$11. Sales of resins at \$10 to \$11. Sales of gums at \$10 to \$11. Sales of skins at \$10 to \$11. Sales of furs at \$10 to \$11. Sales of feathers at \$10 to \$11. Sales of bones at \$10 to \$11. Sales of horns at \$10 to \$11. Sales of hoofs at \$10 to \$11. Sales of claws at \$10 to \$11. Sales of teeth at \$10 to \$11. Sales of nails at \$10 to \$11. Sales of screws at \$10 to \$11. Sales of bolts at \$10 to \$11. Sales of nuts at \$10 to \$11. Sales of washers at \$10 to \$11. Sales of rivets at \$10 to \$11. Sales of pins at \$10 to \$11. Sales of needles at \$10 to \$11. Sales of thread at \$10 to \$11. Sales of twine at \$10 to \$11. Sales of rope at \$10 to \$11. Sales of cord at \$10 to \$11. Sales of cable at \$10 to \$11. Sales of wire at \$10 to \$11. Sales of sheet metal at \$10 to \$11. Sales of tin at \$10 to \$11. Sales of copper at \$10 to \$11. Sales of iron at \$10 to \$11. Sales of steel at \$10 to \$11. Sales of brass at \$10 to \$11. Sales of zinc at \$10 to \$11. Sales of lead at \$10 to \$11. Sales of silver at \$10 to \$11. Sales of gold at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to \$11. Sales of boron at \$10 to \$11. Sales of fluorine at \$10 to \$11. Sales of chlorine at \$10 to \$11. Sales of bromine at \$10 to \$11. Sales of iodine at \$10 to \$11. Sales of mercury at \$10 to \$11. Sales of platinum at \$10 to \$11. Sales of palladium at \$10 to \$11. Sales of rhodium at \$10 to \$11. Sales of iridium at \$10 to \$11. Sales of osmium at \$10 to \$11. Sales of selenium at \$10 to \$11. Sales of tellurium at \$10 to \$11. Sales of bismuth at \$10 to \$11. Sales of antimony at \$10 to \$11. Sales of arsenic at \$10 to \$11. Sales of phosphorus at \$10 to \$11. Sales of sulfur at \$10 to \$11. Sales of carbon at \$10 to \$11. Sales of silicon at \$10 to
